

Thinking About Teaching

Effective teaching possesses certain distinguishing characteristics and abilities. In this micro-teaching exercise, you will have 5- 10minutes to teach a colleague something new.

1. Think of something you can teach another workshop participant.
It can be anything: a motto, a phrase in another language, a mnemonic device, how to whistle, the words to a song, etc.
2. Divide into pairs.
3. Each of you will teach your colleague.
4. Your colleague will demonstrate the skill to the workshop participants.
